

Naqi Logix Wins 2026 TWICE VIP Award for Third Consecutive Year

VANCOUVER, BC, CANADA, September 24, 2026 /EINPresswire.com/ -- Naqi Logix Inc. ("Naqi" or the "Company"), an [AI-neurotechnology](#) company that is a silent, invisible intent interface between humans and technology, announced it has been named a winner of the 2026 TWICE VIP Awards in the Innovative Tech category for its AI-Powered Invisible User Interface (IUI).

This marks Naqi Logix's third consecutive [TWICE VIP Award](#) win, following recognition in 2024 and 2025.

The TWICE VIP Awards celebrate and recognize the best features, design, innovation, and value that consumer technology products and services bring to market. As the only product and service awards voted exclusively by the TWICE audience, winning a VIP Award is a powerful endorsement from retailers, distributors, and industry professionals who know the consumer electronics market best.

“

The award underscores the growing industry interest in new, more natural ways for people to express intent and interact with technology”

Dave Segal, Chief Innovation Officer of Naqi Logix

The TWICE Awards team commented, “This year’s entries demonstrated an exceptionally high standard of innovation and quality. Chosen exclusively by the TWICE audience; these winning products have stood out for delivering real value to the industry and to consumers. A TWICE VIP Award is recognition from the people who understand this market best, making it a true mark of excellence. Congratulations to all our 2026 winners on this great achievement!”

Naqi Logix is proud to receive this recognition and thanks to everyone who voted for the Company. "The award underscores the growing industry interest in new, more natural ways for people to express intent and interact with technology, without relying on screens, voice commands, touching devices, cameras, or implants," commented Dave Segal, Chief Innovation Officer of Naqi Logix

About Naqi Logix

Naqi Logix Inc. is an AI-neurotechnology company that is a silent, invisible intent interface between humans and technology. Naqi's non-invasive, earbud-based neural interface platform captures biosignals and uses proprietary AI to interpret intent, turning subtle facial micro-gestures and head movements into real-time digital commands. Safe, private, and camera-free, Naqi enables hands-free, voice-free, screen-free, implant-free control across computers, mobile devices, robotics, and connected environments.

Forward Looking Statements

This press release, including any materials referenced herein, may contain forward-looking

information or statements under applicable Canadian and U.S. securities laws (collectively, "forward-looking statements"), including, without limitation, statements regarding the future plans, objectives and goals of Naqi Logix Inc. (the "Company"); the Company's future financial results; the anticipated advancement of and benefits derived from the Company's neurotechnology program; the results of ongoing equity and debt financing activities, TWICE VIP Award and the Company's Regulation A+ Offering. Forward-looking statements may be identified by terminology such as "believes," "expects," "anticipates," "estimates," "intends," "plans," "projects," "potential," "may," "might," "will," "could," "should," or "would," or negative versions thereof or similar expressions.

Forward-looking statements reflect current beliefs of management of the Company and are based on certain factors and assumptions, which by their nature are subject to inherent risks, uncertainties and assumptions about the Company, including, among others, related to the Company's business developments and growth strategy; the Company's future performance, business prospects and opportunities; the Company's limited operating history and history of losses; the availability of adequate financing and on favorable terms; the Company's foreign private issuer status; customer demand for the Company's products and services; technological changes; the competitive landscape; the Company's ability to manufacture or distribute products and services; the protection of the Company's intellectual property and user data; legal, tax and regulatory complexity and uncertainty including with respect to required regulatory approvals for the Company's technologies for medical applications; internal controls; the Company's ability to attract and retain skilled personnel; uncertain political and economic conditions; inflation and interest rate variability; supply chain and engineering challenges; cybersecurity threats; the Company's success at managing risks; and other risks discussed in the Company's periodic and current reports and offering statements filed with the U.S. Securities and Exchange Commission, which are available for review at www.sec.gov. Forward-looking statements are not guarantees of future performance and actual events and results could differ materially from those expressed or implied by forward-looking statements.

Readers are cautioned not to place undue reliance on forward-looking statements, which speak only as of the date of the press release or as of the date otherwise specifically indicated herein. Other than as specifically required by applicable law, the Company does not intend to update any forward-looking statements whether as a result of new information, future events or otherwise.
